CLEANS TEETH
REDUCES PLAQUE

3

IMPORTANT BENEFITS

DENTAFIT

DENTAL HEALTH

The extended chewing time helps to prevent dental disease as it scratches along the tooth removing plaque.

STIMULATION

Super long lasting treat to provide mental stimulation and some serious entertainment.

EUPHORIA

For a dog, chewing releases endorphins, throwing any dog into a state of euphoria. Making one happy pooch!

WHAT IS CALCIUM?

Calcium is a nutrient that all living organisms need, including dogs. It is the most abundant mineral in the body, and it is vital for bone health.

Dogs need calcium to build and maintain strong bones, and 99% of the body's calcium is in the bones and teeth. It is also necessary for maintaining healthy communication between the brain and other parts of the body. It plays a role in muscle movement and cardiovascular function.

Calcium occurs naturally in many foods, and food manufacturers add it to certain products. Supplements are also available.

5 HEALTH BENEFITS OF CALCIUM

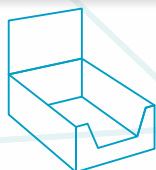

- ✓ **FOR STRONG TEETH**
- ✓ **PROTECT GUMS**
- ✓ **BONE HEALTH**
- ✓ **MUSCLE CONTRACTION**
- ✓ **HEART HEALTH**

WHAT IS CHLOROPHYLL?

Chlorophyll plays an important role in making plants green and healthy. It also has vitamins, antioxidants, and therapeutic properties that may benefit your body.

You can get chlorophyll from plants or supplements. Supplements may be more effective. Although chlorophyll is fat-soluble, it may not survive digestion long enough for absorption.

Chlorophyll supplements are actually chlorophyllin, which contains copper instead of magnesium. When doses of chlorophyllin are taken, the copper can be detected in plasma, which implies absorption has occurred.

5 HEALTH BENEFITS OF CHLOROPHYLL

- ✓ **ELIMINATE BAD BREATH**
- ✓ **BOOST IMMUNE SYSTEM**
- ✓ **ANTI-MICROBIAL**
- ✓ **FIGHT INFECTION**
- ✓ **CANCER PREVENTION**

HARD DENTAL STICK

VETERINAR'S OPINION

Oral hygiene is an important aspect of your canine companion's overall health, which is why taking care of their teeth and gums is so important. While regular brushings with a toothpaste specifically formulated for dogs and dental checkups at the vet should be on your pup's wellness to-do list, providing your pet with a dental stick can also help them keep a healthy mouth.

Hard dental as the best dental stick for dogs. With a blend of all-natural ingredients, this dental stick for dogs is one that will keep your pooch's mouth in tip top shape. These benefits allow your dog to live a long and happy life, free from the pain of dental disease.

**SPECIAL SHAPE FOR PROPER
CLEANING OF YOUR DOG'S TEETH**

WHAT IS PROPOLIS?

Did you know that honey isn't the only thing that bees make? Bees also produce a compound called propolis from the sap on needle-leaved trees or evergreens. When they combine the sap with their own discharges and beeswax, they create a sticky, greenish-brown product used as a coating to build their hives. This is propolis.

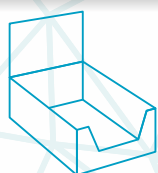

Rich in flavonoids, a class of antioxidants, propolis has a long history of use as a natural treatment for a host of health problems. Research shows propolis has many healing properties, including antimicrobial, anti-fungal, anti-viral, anti-inflammatory, and anti-tumor qualities.

5 HEALTH BENEFITS OF PROPOLIS

- ✓ MOUTH DESINFECTION
- ✓ ELIMINATING BACTERIA
- ✓ FIGHTS PARASITES
- ✓ CANCER PREVENTION
- ✓ PREVENTS COLDS
